Career Objective

Aspiring Python Full Stack Developer with hands-on experience in building front-end interfaces, Django-based back-end systems, and creating REST APIs for real-world applications. Strong foundation in Python, Django, MySQL, and JavaScript. Seeking an opportunity to work in a dynamic tech environment where I can apply my full-stack and API development skills, grow professionally, and contribute to impactful projects.

Technical Skills

- Frontend: HTML, CSS, JavaScript, Responsive Design
- Backend: Python, Django, Django REST Framework (DRF)
- Database: MySQL, Django ORM
- API Development: CRUD APIs, Authentication APIs, JSON Handling, Postman Testing
- Tools: Git, GitHub, VS Code, AWS Basics

Education

B.Tech – Data Science (AI & ML), Avanathi Institute of Engineering & Technology — Pursuing (III Year)
Intermediate – Vivekananda Junior College — 69%
10th Class – ZPHS High School — 92%

Projects

1. Portfolio Website — HTML, CSS, JavaScript

Responsive personal portfolio showcasing skills, projects, and contact sections.

2. Blogs Website (Full Stack + REST API) — Django, MySQL, DRF, HTML, CSS, JS

Includes user authentication, CRUD for blog posts, admin panel, and custom REST APIs.

3. REST API Mini Project — Django REST Framework

Created APIs for student data, product management, and token-based authentication.

4. AWS Virtual Internship – HCL Forage

Hands-on tasks with IAM roles, cloud migration basics, and AWS architecture understanding.

Languages

- Telugu
- English

Strengths

- Logical thinking, problem-solving, fast learner, teamwork skills

Declaration

I hereby declare that the above information is true to the best of my knowledge.
